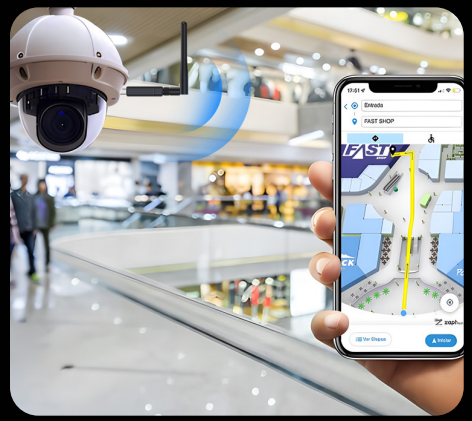
MOKO SMART

Plug-In Precision Anytime

L05 USB beacon

The L05 is a compact, plug and play USB BLE beacon, requiring no complex installation or additional tools. It stands out as an exceptionally convenient solution by eliminating the need for external power sources. With excellent radiation capabilities, it ensures robust signal strength and reliability across various environments. Ideal for indoor navigation or promotional applications, L05 is a great choice for convenience, efficiency, and reliability.

Applications

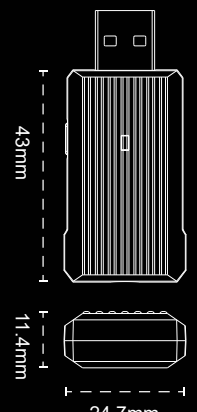


Location anchor

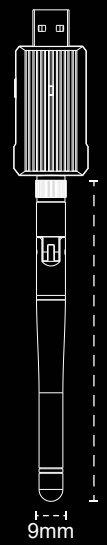
Proximity marketing

General specs

Antenna:	L05I (Internal Antenna) L05E (External Antenna)
Chips:	nRF52 series
Range(Without any obstacles):	150m (L05I) 250m (L05E)
LED:	Red and Green
Material:	ABS+PC
Color:	Black (Customizable)
Weight:	10.1g (L05I) 19.9g (L05E)
Dimension (mm):	43.0 *24.7 *11.4 (L05I)
	Φ9 *108 (External Antenna for L05E)
Installation:	Insert into USB port
Power:	USB
Operating temperature:	-20 ºC~ 50 ºC
Certificate:	FCC | CE | RoHS | REACH



L05I



L05E

Key point

- No need extra power
- Excellent radiation performance
- Easy installation
- Dual form optional

*L05I-Internal antenna model, L05E-External antenna model. The two models differ only in antenna shape and have no difference in function.
